December 15, 2014

Dear City of St. Marys Business Owner(s):

I hope 2014 was a prosperous year for you and that your business continues to be successful in 2015. We're happy that you're part of our community and we're pleased with everyone's recycling efforts which, continues to improve each year based on the annual reports you submit!!

Enclosed please find your "Annual Recycling Report" form and instructions for reporting your recycling efforts for 2014. **The deadline for submitting the form is February 1, 2015.** Please submit your completed form to: City of St. Marys, Attn: Tina Gradizzi, 11 LaFayette, P.O. Box 1994, St. Marys, PA 15857.

As I'm sure many of you are aware, the keys to a successful recycling program are dedication, education, good recordkeeping and obtaining receipts and/or tonnage slips. If a company or organization does not provide you with a receipt and/or tonnage slip, you can certainly request that one be provided. Please note for reporting purposes on the "Annual Recycling Report", receipts and/or tonnage slips are only needed for the material listed on page one of the report.

As always, if you have any questions please feel free to contact me at 781-1718 ext. 225 or email me at tina@cityofstmarys.com. Thank you for your time and continued efforts!

Best wishes to you, your employees/staff and families for a blessed holiday season!

Sincerely,

TINA GRADIZZI
Community & Economic Development Coordinator

ANNUAL RECYCLING REPORT INSTRUCTIONS CHECKLIST

For Commercial, Municipal, Institutional Facilities

This form is to be completed by commercial, municipal or institutional establishments in PA.

Commercial Establishment: An establishment engaged in non-manufacturing or non-processing business, including, but not limited to, stores, markets, office buildings, medical offices, restaurants, shopping centers and theaters.

Municipal Establishment: An establishment engaged in government work including, but not limited to, offices of the federal government, state government, cities, boroughs, incorporated towns, townships, counties and authorities.

Institutional Establishment: An establishment engaged in service including, but not limited to, hospitals, nursing homes, orphanages, schools and universities.

The information on this form will be used by the municipality where you are located to gauge your compliance with their recycling ordinance (if they have one) and to complete a recycling performance grant. The materials listed on the first page may be required by local ordinance to be recycled and, with the exception of the organics, can be used for the municipal recycling performance grant. The materials listed on the second page are common materials recycled, but they are not usually required to be recycled by local ordinance and cannot be used for the municipal recycling performance grant.

Please use the following checklist to complete form 4500-FM-SW0011:

- Insert the current reporting year (upper right-hand corner of form).
- Insert the county and municipality where your establishment is located.
- Complete the information about your business. Please choose a primary business function which best describes your establishment. For instance:
 - Manufacturing
 - Office/Administrative Services (i.e. realtor, bank, insurance agent, etc)
 - Wholesale/Retail
 - Institution (i.e. school, hospital, nursing home, etc)
 - Government
 - Medical office (i.e. dentist, doctor, chiropractor, etc)
 - Other - explain in your own words
- Check which best describes how recyclables are handled within your establishment. The definitions are as follows:
 - Source separated - all recyclables are kept separated from each other,
 - Commingled - two or more recyclables are collected together but fiber (i.e., paper & cardboard) is kept separate.
 - Single stream - all recyclables, including fiber, are collected together.

- Check which best describes how your recyclable materials are collected.
- If another company transports the recyclables from your location, please include the name of the hauler, document destruction company or other transporter in the space provided.
 - If you transport your recyclables to a drop-off facility or take the materials to be recycled with a curbside recycling program, please note the name and location of the drop-off or curbside program in the space provided.

If any of the above scenarios fits your situation no tonnages should be reported on this form. However, you must place a check mark beside the materials your establishment recycles in order for the municipality to know if you are in compliance with their recycling ordinance.

- If you transport your recyclables to a recycling facility or other facility where the materials are weighed, please note the name of the recycling facility or other facility.

- Place a check beside the materials your establishment recycles.

Report only post-consumer materials on this form. Post-consumer material is material that has been used as a consumer item and then diverted from municipal solid waste for the purpose of collection and recycling. The term excludes material generated in manufacturing and converting processes such as manufacturing scrap and trimmings/cuttings. Also, print overruns, over-issue publications, and obsolete inventories that did not leave the generating facility would be classified as pre-consumer materials and should **not** be reported on this form.

If you do not transport your own recyclables, do not enter tonnages on this form and skip over the boxed section of the instructions below! The weights will be retrieved from the company providing recycling services to you; therefore it is very important you name the company providing recycling services.

- If you deliver your recyclables yourself, enter the tonnage of each material recycled. **Do not report tonnages if you have another company collecting your recyclables.** Tonnages are only entered if you transport the materials yourself to a recycling facility where the materials are weighed.

- You must attach a legible weight ticket from your recycler for any materials recycled on page 1. A weight ticket is not required for tonnages on Page 2.**

Subtract processing residue before entering your tonnages on this form. Processing residue is material that is collected and weighed with recyclables, but is disposed rather than recycled. The recycling facility can provide you with the % processing residue they produce at their facility. Processing residues vary greatly – from 1% to 30%. You need to ask your recycler to tell you the % of material discarded from their facility and subtract that % from your weight ticket amount. **Do not report processing residues on this form.**

If you deliver your materials commingled or single stream, please check the appropriate boxes to note the recyclable materials in the mix, but only enter the tonnage beside commingled or single stream. Do not estimate tonnages of each individual recyclable material in the commingled or single stream mix.

- Use the conversion chart on page 2 as necessary.

- Sign and date the form.
- Submit to the municipality where you are located by Feb. 1.

**Submit Report to:
City of St. Marys
