STORMWATER MANAGEMENT ORDINANCE

Recently the City of St. Marys adopted a new Stormwater Management Ordinance. This ordinance specifies that a permit is required before the construction, installation, erection, or re-surfacing of ANY impervious surface such as structures, buildings, houses, additions, garages, sheds, porches, patios, carports, or concrete or asphalt driveways. The new stormwater management permit is combined with the existing City zoning permit. Permit applications for these improvements are available at City Hall, 11 Lafayette Street, or at the City of St. Marys website: www.cityofstmaryspa.gov and can be submitted by the contractor or the property owner; but is ultimately the responsibility of the PROPERTY OWNER.

If you have any questions regarding this Ordinance, please feel free to contact the City's Zoning Officer at 781-1718 Ext 227.
