Porch/Porch Roof Plan Requirements

These guidelines & cross section are designed to assist you with your residential porch/porch roof plans. Please include as much information as possible to speed up the plan review & building permit process. Attached building cross section is to help show most information but cannot be accepted as your only plan. If you are unsure of a code requirement please ask.

The following items, views and details should appear on your plans & cross section:

1. Views of all sides of the porch/porch roof. (Also indicate final grade)
2. Show footer depth, width & thickness. (When applicable)
3. Support Post sizes, type, spacing and method of attachment top and bottom.
4. Beam/header locations, type, sizes, span, method of support and attachment.
5. Roof framing; Trusses or stick-framed sizes, span & on center spacing.
6. Roof covering materials. (ex. 5/8" plywood w/ H-clips, ice & water shield, 30# felt paper, asphalt shingles)
7. Also include any information on electrical if adding lights under porch roof, etc. and porch roof finish materials. (ex. Vinyl soffit, fascia).
